Town Completely Submerged.

LEAVENWORTH, Kas., June 20.—Beides the loss of life reported from here last night, particulars have been repeived of the drowning of the family of John Gribb, living fourteen miles north of here. During the flood on Sunday morning he attempted to leave his house with his wife and four children in a wagon, but this was overturned by the current and Mrs. Gribb and all the chiln were drowned. This makes twelve lives lost on Sunday. Only four bodies have been recovered. The little town

Preparations for the Coming CHICAGO, June 20.—Sixteen of the noted oarsmen of the country have already arrived to take part in the regatta at Pullman on Friday and Saturday of this week. They comprise the finest field of rowers ever assembled in the United States for a contest. Hanlan, the World's champion, will contest in both single and double scull races his

both single and double scull races, his ampion in the double scull race being Hanlan is in fine condition, but sserted that he will have to row to hold first place, as some of the oarsmen are known to be in most excellent shape and are liable to press him. Oarsmen describe the Lake Calumet course as one of the finest in the world, and with good weather there is promise of an enormous attendance, as it is the first really great professional race which has ever occurred in the West.

The Quaker Policy Won't Do In San Francisco, June 20 .- In an in terview vesterday with H. N. Van Arnam, Secretary of Arizona, he stated that it is estimated that Juh and fifty The Orange Orchard of bucks are still at large and it is believed that Charlie McComas has been killed by them. He said it was probable that the leading chiefs will be tried by courtnartial and that the Mexican Gov of Chihuahua and Sonora demand the extradition of the other bucks captured.

Commercial Crisis in Chicago. CHICAGO, June 20 .- This has proved nother exciting day on 'Change. The ndition of affairs has been very much strained. Great trading has changed over from provisions to wheat and corn, and the failures that have occurred in all lines have caused unsteadiness to attach to many of the horizontal lines. tach to many of the heavier firms.

Fierce Fire at Fresno. FRESNO, June 20 .- A destructive fire occurred here at 3 o'clock this morning. Ten buildings were burned. The loss amounts to about \$70,000.

From the San Bernardino Index.] Our contemporaries of Los Angeles the Herald and Times, are having a wordy warfare over the wine crop The TIMES came to the conclusion tha wine would be a drug in the market this year, which the Herald indignantly attempts to disprove. To bolster up its position the Herald says From Mr. B. Dreyfus, the extensive

wine maker of Anaheim, we learn that the Zinfandel wine that he is producing is so very fine that his entire stock o that vintage has been sold in San Francisco, where it is pronounced of su-perior quality. Mr. Drevfus finds a brisk market for all his wines and is shipping daily to Eastern and Northern markets. He is indignant at the statement of a morning contemporary that wine is a drug in the market, and that the business of wine making is overdone. As in the United States, his opinion is entitled to great regard. The light, sour wines of Anaheim are not pro-moters of intemperance, but rather of

temperance and a good appetite. Intemperance springs from other sourcesthan from light wines.

How different indeed is the story Mr. Dreyfus would tell a man whose mr. Dreyfus would tell a man whose small crop of wine he would expect to buy, and a newspaper, whose opinion goes to the world and represents somany dollars and cents profit to his pocket. In conversation with George W. Groves, a small wine maker of this city, Mr. Dreyfus represented that the demand for new wines would be very slight, and that in fact there was no sale at all for them. He there was no sale at all for them. He gave as a reason for this that parties who had bonded their wines for a number of years were owing the Government about \$5,000,000, and that they had been compelled to put this old wine on the market at the same price as new wine to satisfy the de-mands of the Government. The natural result is that the old wines meet the demand and there is no sale for

The barley crop looks well and wil turn cff a larger crop throughout San Luis Obispo county than ever has been known. The wheat crop will be cut short some by reason of the recent hot spall, but the yield will, nevertheless be remunerative to the farmers.

THE STATE MINERAL EXHIBITION In its issue of a few days ago, the Alta complained, and very justly, of the lack of interest manifested by the different counties of the State in the State Mineral Exhibition to be held in San Francisco next August. The Supervisors of every county have been addressed by those having the matter in charge, in regard to the desirability of being adequately represented, and have been asked to make an appropriation of fifty dollars for that purpose, but none of the counties, says the Alta, have shown sufficient interest in the matter to make the appropriation, and only one county has made any response at all to the invitation extended. But Inyo, San Bernardino, Humboldt, Butte, and several other counties will accomplish through private enterprise what the counties fail to do in their corporate capacities, and

this morning and got duly swindled," said the head of our family to me a few days ago.
"Swindled!" said I? "how?"

"Why, I went to pay the license on Modoc Chief, and instead of the one dollar per month, as advertised in the new license ordinance, I found I had to pay two dollars, one for the Chief and one for the fees of the County Auditor and Collector. And that is not all. I am not allowed to pay the license by the quarter or by the year; it must be done once a month, though monthly fee, which amount to just as much as the license does—twenty-four

I wonder, Mr. Editor, what will be the next official device for extorting the honest, industrious producers their hard-earned dollars. It is in this very thing we have been promised "retrepchment," "equaliza-

this very thing we have been promised "reform," "retrenchment," "equalization" by both Republicans and Democrats. The new Constitution was going to work wonders for the dear "poor man" for whose especial benefit it was gotten up, but it has not done it yet.

I am not a woman's rights woman, and have no desire to vote, but it does seem to me that it is about time to let tire women try their hand officially at bringing about their needed and long talked-of reforms. They certainly could not make a worse botch, or a more disgusting and disgraceful failure than the men have. Had the Honorable Board of Supervisors been composed of the same number of wives and mothers, whose hands are hardened and browned by toil, no such oppressive and odious measures and fees as are now under criticism, would ever have passed that body. If a special license tax must be resorted to to replenish the Treasury funds, then let it be imposed upon the two classes who are to be most benefitted by them, namely, the soft-handed, white-faced, salaried gentry, and the whiskey-selling, crime-breeding, death-dealing fraternity. No drought, no blasting wind, no glutted market or orchard pest ever curtails their respective incomes. They are as certain of them as death is of us all, and they have only to lide their time to close soft ingers over coin which is already awaiting them. If refer particularly to the first of the two classes.) Is it any more than right or just that, for the high privitage of immunity from risk, hard work and loss, these favored few should pay a fair equivalent? Returned to them. Perhaps I am unjust and unkind—there I want to whisper just to you, Mr. Editor; that if my sous, when grown to manhood, can desire no more oncest or honorable methods of gain—to not only the properties of the two classes of the series of the two classes of the series of the two classes of the series of the two classes of the properties of the two classes of the properties of the two classes of the properties of the two classes and the properties of

It is a demonstrated fact in every

community that the liquor traffic is the frightful cause of four-fifths of all the frightful cause of four-fifths of all the crimes committed. How far will the pitiful pittance be imposed upon our whisky dealers by the new license ordinance, and which they are taking steps to evade, go towards paying the county expenses of the trial of Clarence Gray? The burden of the payment of his execrable crime must be borne by the toiling virtuous men and women who never enter a saloon, or take a drop of liquor, while the whiskey-selling promoters of it are practically exempt. If these men will prosecute their nefarious business, why should not they pay for the evil it inflicts, so far as paltry coin can do it?

They have commenced heading grain on the Conejo. Prospects for a good yield are excellent.

Water Analysis.

San Francisco, September 18, 1882.

For Mr. Victor Beaudry, Los Angeles:

I have carefully analyzed the sample of water—marked as under—and find the following to be the proportions in every 100 parts:

[Mark of sample, Los Angeles.]

Solid residue, 29.16 grains per United States called. Solid residue, solid grains per United States gallon.
Chlorine, 2.39 grains per United States gallon.
Ammonia (free and combined), .085 milligram per litre.
Albuminoid ammonia, .12 milligram per litre.
The water does not indicate the presence of any
injurious ingredient in abnormal quantities, and
is a good quality of water for dietetic purposes.
It is free from any secage contamination.

Respectfully submitted,
THOMAS PRICE, M. D.

BRINC CLAD TIDINGS. HEALTH

Health restored and life prolonged to suffering humanity, by the most wonderful curative agents ever discovered. I invite the sick, no matter what their diseases may be, to call and investigate for themselves before abandoning all hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion, and reasonable in my charges, I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diploms and the numerous recommendations in my possession, which will always be ready for inspection at my office. I HAVE NO ONE CURE-ALL! nor do I make a hobby of any one mode of treatment. I use electricity or medicines or both, as cases may require. I find the cause of disease, remove it, and nature, assisted by medicinal remedies properly applied, will promote a cure without fail. TO THE LADIES. To the ladies I would say: You, whose sufferings have become intolerable, and who have suffered a thousand deaths from those diseases so common to your sex, give me a call, for I CAN JL 4E YOU WITHOUT FAIL, and make your lives once again worth living for. And all consultations will be strictly private and confidential. YOUNG MEN. To those young men who are suffering from year to year, and whose vital powers have become impaired, and nervous system unstrung and broken down, and are suffering all the horrors from the effects of youthful follies; COME AND SEE ME. I have a sure preventive of premature decay and early death. To those who from indiscretions have contracted private diseases, and are destrous of being cured, come without fail, for I can guarantee you a speedy cure. H. KING, Chief of Police. OUR COMPETITION in Quality. Not in Price.

TOUSEKEEPERS willingly pay a nigner price for pure milk than for watered milk—for double-strength vinegar than for alingle strength. It is perfectly reasonable that a can of NEW ENGLAND BAKING POWDER, which is pure, should cost a few cents more than those adulterated with Starch—an article perfectly useless in Baking Powder, and only used became it gives bulk and costs so little. than those adulterated with Starca—an structe perfectly useless in Baking Powder, and only used because it gives bulk and costs so little.

NEW ENGLAND BAKING POWDER is admitted to be the most expensive powder manufactured, as it is composed of nothing but Oreamof Tartar and Bi-Carbonate of Soda of perfect purity, without any adulteration whatever. NEW ENGLAND BAKING POWDER therefore of higher cost to the dealer than other brands, and consequently retailed at higher prices.

NEW ENGLAND BAKING POWDER imparts lightness and delicacy of flavor to bread, biscuits, cakes and pastry, and being one-third stronger it is the cheapest to use, requiring, as it does, but two-thirds the usual quantity, making the cost really lower than other powders.
